## SUMMARY

---

I am a third-year Computer Science student at BINUS University, majoring in Intelligent Systems. I am passionate about artificial intelligence, data and data analytics, with a strong interest in exploring how AI can drive innovative solutions in data analytics and decision-making. My academic journey and hands-on experience as a full-time software laboratory assistant have provided me with a solid foundation in intelligent systems, machine learning, and software development. I am eager to deepen my expertise in data science and leverage AI technologies to uncover insights and solve complex problems.
